All public schools in California are required annually to prepare School Accountability Report Cards (SARCs) and disseminate them to the public. SARCs are intended to provide the public with important information about each public school and to communicate a school's progress in achieving its goals. Most SARC requirements are codified in

California *Education Code (EC)* sections 33126 and 33126.1. *EC* Section 35256 requires that the governing board of each school district maintaining an elementary or secondary school develop a SARC. *EC* Section 1984 provides that a county board of education shall be deemed to be a school district when it establishes and maintains a county community school. Further, *EC* Section 1906 provides where a county board of education operates classes or schools for prisoners in a county jail, county farm, or county road camp, the county board of education has the same obligations as a school district would have if it were operating the schools. Therefore, any county board of education operating an elementary or secondary school is required to prepare SARCs. (Video: [16:43](#))
